Career Objective:

To obtain a challenging position in an organization where I can put forth the best of my knowledge and experiences for the growth of the organization while having the scope to develop my own skills.

Summary:

- Creation of **Power BI** reports by connecting heterogeneous sources and publish and schedule refresh the reports on **Power BI Service**.
- Used **Power BI** and **Power Query Editor** to develop data analysis and used **Power BI Charts** and **Power BI Maps** to visualize reports. **Transformation** in power BI.
- Knowledge of Power BI tooltips, Context filter, report filter, page filter, incremental Refresh in the report and dashboard.
- Use different types of DAX function related to Time intelligence, Hierarchies, Aggregate, Calculate, filter, All, All except TopN, Rank etc.. in Power BI reports.
- Give some **insights** on data apart from daily, weekly and monthly reports.
- Worked extensively on **Ad-hoc** requests made by internal and external stakeholders.
- Responsible for handling tenant settings for capacities, workspaces and dataset.
- Experience in **MS Excel** (**Pivot table, V-Lookup, Index, Match, Offset, Sumif, Sumproduct, Subtotal** etc)
- Experience in writing **T-SQL** queries (**Sub query, stored procedures, joins, triggers, functions**) using various DDL and DML commands.
- Published Power BI reports in the required originations and made Power BI dashboards available in **Web Clients**.
- Knowledge of **dimensional modelling** concepts.
- Proficient in technical writing and presentation and a good team player.
- Strong investigative and trouble shooting skills.
- Work on **automation**. Like daily basis report send automatic on mail.
- Also knowledge of looker studios. Creating real time dashboard.

Technical skills:

- Proficient in creation of dashboards and reports in **Power BI**
- Good knowledge of **advanced excel**
- knowledge of database **MS SQL Server 2014**.
- Knowledge of writing **T-Sql queries**.
- Work on automation.
- Know of looker studios
- Know of prompt engineering.

Educational Qualification:

- B-tech (Computer Science and engineering) from BIET Lucknow.
- Diploma (Computer Science and Engineering) from BTEUP Board.
- 12th (S.K.I.C Deoria U.P)

Professional Experience:

MIS Executive

Silaris Information PVT LTD | Delhi| Dec 2024 – Jun 2025

- Developed and maintained interactive dashboards and reports using **Power BI** to support management decision-making.
- Automated data consolidation from multiple sources (Excel, SQL Server, SharePoint) to streamline reporting processes.
- Created **data models, DAX measures, and calculated columns** to provide accurate KPIs and insights.
- Scheduled and managed **Power BI service reports** with refresh configurations for real-time data availability.
- Worked closely with cross-functional teams to gather reporting requirements and translate them into visual solutions.
- Conducted **trend analysis, variance analysis**, and business performance tracking through custom Power BI reports.
- Designed and maintained dashboards and management reports using **Power BI** and **Advanced Excel**, supporting data-driven decision-making across departments.
- Built interactive Power BI reports using **data modeling, DAX formulas**, and dynamic visuals to track KPIs and performance metrics.
- Automate the daily basic report.

Role:

- Developed **Power BI reports and dashboards** from multiple data sources.
- Created Reports and dashboard in Import /Direct and Live connection based on the requirement and type of data sources.
- Work extensively on Ad-hoc requests made by internal and external stake holders.
- Create **insights** from the historical data apart from daily, weekly and monthly reports
- Used Slicers filters toolkit and other features in Power BI to present the data interactive and informative.
- Involved in troubleshooting, resolving and escalating data related issues and validating data to improve data quality.
- Designed **Power BI data visualizations utilizing cross tabs, maps, scatter plots, line chart, bar chart, pie charts, tree map, area chart** etc..
- Involved in creation of dashboard and reports in **Excel and Power BI**.
- Extensively used **DAX** in power BI for the creation of **calculated colums, measures** and tables.
- **Power BI Gateways clustes** to keep On-Prem data source be available for report and datashboards all the time.
- Created stored procedures and SQL queries to pull data into Power BI Reports.
- Extensively used Joins and Sub-Queries to simplify complex queries involving multiple tables.

Data analyst Training

Maati Academy | New ashok nagak ,New Delhii| From jun'24 to dec'24

- Conducted **trend analysis, variance analysis**, and business performance tracking through custom Power BI reports.
- writing **T-SQL** queries (**Sub query, stored procedures, joins, triggers, functions**) using various DDL and DML commands.
- I have worked in multiple dataset during training and make multiple project dashboard like HR dashboard, Ecommerce Dashboard, Using Dax, create measures. Day by day sales and yearly report create on project.
- I have take data from multiple source like ms sql server, Asure,CSV ect.
- I have create multiple dynamic dashboard in power bi.
- In Sql i have knowledge about joins, trigger, Store Procedure,DML,DDL,transactions ect.
- Designed and maintained dashboards and management reports using **Power BI** and **Advanced Excel**, supporting data-driven decision-making across departments.
-

Areas of Interest:

- Interested to learn new technoligies.
- Watch motivational movies with friends.
- Play cricket in spare time.
